EXPERIENCE

SOFTWARE ENGINEER

07/2022 to present

Atlanta,GA // **Thinx! Software**

- Involved in the complete overhaul of RatePlan feature using Java, which involved changes in the structural, design and database layer. Implemented multiple functionalities for the feature including parent-child rateplans, price increase modules, and adding create order functionality which queries Zuora.
- Implemented the back-end functionalities at controller and service levels in Java, using Spring Framework and Maven to manage Java libraries. Utilized MongoDB, MySQL and Oracle databases.
- Developed the TMC Profile feature, which allows users to dynamically add new elements to the client portal and is used by more than 10% of the customer base.
- Working as a full stack developer, I primarily utilize Java, JavaScript, jQuery, Bootstrap, HTML, CSS, JSON, and AJAX to implement single page web applications.
- Solved bugs for Inventory and Subscription module functionalities.
- Wrote JUnit Tests for the Portal and Queue modules.

SOFTWARE ENGINEER

06/2006-08/2009

Bengaluru, IN // **Wipro**

- Testing engineer responsible for designing, implementing, testing and reviewing in Telecom domain.
- Cultivate client relationship and interact with the client for application design enhancement(off-site and on-site in Richardson, Texas).

INTERNSHIP

04/2011-06/2011

Bengaluru, IN // **Novell**

- Research and analyze the response and perception of key target group working in various industries by arranging in-depth interviews.
- Design marketing strategies for the program to effectively enhance customer value through pro-palliative research to find out the interest triggers of independent software vendors.

BUSINESS DEVELOPMENT MANAGER

03/2012 - 12/2012

Bengaluru, IN // **Kwench**

Managed entire B2B sales cycle from prospect to closing, selling people solutions to leaders in the IT, Pharmaceuticals and e-Commerce space.

- Cultivate business relationship with decision makers through prospecting efforts.
- Present Kwench offering to HR leadership using customized pitch decks.
- Spearhead contract negotiations in tandem with procurement teams.
