SUMMARY

Tenacious, curious and self-taught web developer based in Atlanta. A quick learner recognized for engaging communication style and an eye for pleasant design, ready to take on new challenges in a Web Developer role.

SKILLS

JavaScript, HTML, CSS, SASS, ReactJS, NextJS, Node.JS, Express, Git, MongoDB, MySQL, REST.

PROJECTS

Femme Jolie E-commerce Website
- Deployed on https://femmejolie.vercel.app
- Built a responsive website that allows users to shop, view apparel pieces, add them to cart and pay for them.
- The server side handles authentication, authorization, and querying the Database.
- Used: NextJS, MongoDB, HTML/CSS

React Blog
- A responsive blog with some of my notes I made during my journey to learn web development. The plan is to keeping adding to it as I progress.
- The NodeJS server handles authentication, authorization, validation, comment section and querying the MySQL DB.
- Used: ReactJS, NodeJS, HTML/CSS

Healthbite App
- A nutrition app which allows users to access nutritional information of various food types.
- Utilized the Nutritionix API.
- Used: Javascript, HTML/CSS

EXPERIENCE

Software Engineer, Wipro   06/2006-08/2009
India
- Test engineer responsible for designing, implementing, testing and reviewing in Telecom domain
- Cultivate client relationship and interact with the client for application design enhancement(off-site and on-site in Richardson, Texas)

INTERESTS

Reading biographies, painting, hiking, yoga, and watching world cinema.
